2010 MAPS BREEDING STATUS LIST

List all species ever encountered at the station!

Location: _ _ _ _ Station: _ _ _ _

Period Status Codes: Please record only the highest hierarchical breeding status observed during each period (C supercedes P and O; P supercedes O), and the appropriate daily sub-codes (hierarchically listed) describing the behavior or observation indicating that status (e.g., Cn, Pc, or Ob). If a species wasn't observed, use a '—'. If a station was operated two or more days in a period, record only the highest breeding status observed.

C = Confirmed Breeder n = current year's nest found m = carrying nest material f = carrying food or fecal sac d = distraction display l = local bird present	P = Probable Breeder c = courtship/copulation t = other territorial behavior s = song/drumming	O = Observed b = banded/captured e = encountered o = flyover	— = Absent
--	---	---	-------------------
