2009 MAPS SUMMARY OF MIST-NETTING EFFORT - pg 1

LOCATION CODE: _ _ _ _ STATION CODE: _ _ _ _

List net numbers of all 12-m nets: _____

List net numbers and lengths (in meters) of all other nets: _____

If any nets are stacked, list their net numbers and how stacked (i.e. net 02 and 03 stacked:

02-low, 03-high, etc.): _____

Describe any changes in your nets or net sites since last year. **Any moved nets require new net numbers!:** _____

MAPS PERIODS

Period One: May 01 - May 10
 Period Two: May 11 - May 20
 Period Three: May 21 - May 30
 Period Four: May 31 - June 09
 Period Five: June 10 - June 19

Period Six: June 20 - June 29
 Period Seven: June 30 - July 09
 Period Eight: July 10 - July 19
 Period Nine: July 20 - July 29
 Period Ten: July 30 - August 08

NOTE: Heavy snowpack in some years can cause the breeding season to be delayed in the higher elevations of the western mountains. We allow the entire MAPS season to be shifted later by one or even two periods in these instances. If your station experienced a delay in breeding this year due to heavy snowpack, please indicate the number of periods you shifted this year (1 or 2): _____

Intended Period	Date (mm/dd)	Net number(s)	Open Time		Close Time		Net Hours	Period Net Hours	Note No.*
			(nearest 10 minute) hour	minute	(nearest 10 minute) hour	minute			
e.g. 3	05/21	01-08, 10	06	00	12	00	54.00		
<	<	09	06	30	12	00	5.50	59.50	1
				0		0			
				0		0			
				0		0			
				0		0			
				0		0			
				0		0			
				0		0			

* Please write notes on reverse side of this page.
