

CHANGES TO IBPAOU20.DBF (FROM IBPAOU20.DBF) BASED ON AOS (2021)

This file documents all changes to species names and codes to IBPAOU21 (from IBPAOU20) performed in June 2021. These changes are based on changes to species and nomenclature as recorded in the 62nd Supplement to the AOS Checklist, made available online by the AOS in late June 2020. In all cases additions and changes were thoroughly cross-checked for new conflicts and for the release of old conflicts. Unless stated it can be assumed that no new conflicts occurred. NUMB, CAT, PNO, and ORD codes (species number, category, species status, and order) are internal codes used by IBP, in part to resolve conflicts (see Pyle and DeSante 2003, listed on [IBP's alpha-code page](#) for details).
