

## 2026 MAPS BREEDING STATUS LIST

**List all species ever encountered at the station!**  
 New stations only. Previous stations download prefilled list MAPSNet

Location: \_\_\_\_\_ Station: \_\_\_\_\_

Period Status Codes: Please record only the highest hierarchical breeding status observed during each period (C supersedes P and O; P supersedes O), and the appropriate daily sub-codes (hierarchically listed) describing the behavior or observation indicating that status (e.g., Cn, Pc, or Ob). If a species wasn't observed, use a ---. If a station was operated two or more days in a period, record only the highest breeding status observed.

C = Confirmed Breeder  
 n = current year's nest found  
 m = carrying nest material
